¹⁹¹ Dear & deeply esteemed Mr. Garrison

Your most kind letter with its
highly valued enclosure has reached
me this afternoon, and I hasten to
return you my heartfelt thanks
for both — Before I stated who
the letter was from, I handed the photo-
graph to the sister who accompanied
me to the meeting — She knew it
in a moment — We both think it very
like, and I really am delighted
to have it, and think it particular-
ly kind of you to send it to
me, as also to write two or

Three times - your name - this will
enable me to gratify 3 friends, who
will I know, gladly possess your
autograph - My sisters and I shall
have the pleasure of looking at you,
in company with many other valued
ones, in our Photograph album
- I ought not & I will not, intrude
long upon time so necessarily occu-
- pied - but permit me to add our
united kindest wishes that
all you expected, all we
wished for in visiting our
shores may be amply
realised - May you also
most thoroughly enjoy your
anticipated tour into Switzerland
and the wonders and brilliancy

of Paris - And may the same
Gracious Providence which has
so signally blessed your past
course, bless all your future
lot, and restore you safe
and well to the bosom of
your family - A happy
meeting be to you all -

Ever respectfully and
gratefully yours

Sarah Logan

May I trouble you to give my
kindest respects to the Boston ladies
who may happen to remember my
name - My sisters and myself leave
home to-morrow to visit for a day or two
some dear friends at Putney who will like to
see your Photograph -

Miss Sarah Logan,
South Hackensack,
